

FOR UNIVERSITIES & COLLEGES

*We have great software and great culture!*

# Run your entire placement season on **one platform**

NestHR PlacementOS gives your placement cell one place to manage the whole season — student profiles, company drives, batch evaluations, and offer tracking. No more spreadsheets, scattered emails, or last-minute chaos. And if you want it, a complimentary HRMS to manage your own faculty and staff comes with it.

## One season

Every drive, one platform

## Batch eval

Evaluate students at scale

## + HRMS

Complimentary for staff

### **Your placement cell, finally organized.**

Placement season is a logistics problem: hundreds of students, dozens of companies, endless coordination. PlacementOS turns that into a single, structured workflow — from student profiles to final offers — so your team spends time placing students, not chasing spreadsheets.

# What's inside

PlacementOS runs the full placement lifecycle, and a complimentary People OS handles your own staff if you want it.

## PlacementOS — your placement season, end to end

From building student profiles to tracking the final offer, every step of the season lives in one connected workflow that your team, your students, and your recruiters can all rely on.

### Student Profiles

Structured, verified student data ready to share with recruiters.

### Company Drives

Manage every visiting company and drive from one place.

### Batch Evaluations

Evaluate students at scale across rounds and criteria.

### Offer Tracking

Tokenized offer response, so students accept or decline cleanly.

### Placement Analytics

Live view of the season: offers, conversions, and outcomes.

### Coordination

Notifications and workflows that keep everyone in sync.

## People OS: complimentary HRMS for your staff

Your institution runs on people too. If you want it, PlacementOS comes with a complimentary People OS to manage your faculty and staff — records, attendance, leave, and documents — the same platform, extended to your own team, at no extra cost.

# Why NestHR, and what it costs

Purpose-built for placement cells, priced for institutions, and generous enough to run your whole campus.

## One platform for the whole season

Students, drives, evaluations, and offers, all connected, no spreadsheets.

## Tokenized offer response

Clean, trackable student acceptances, no confusion at the finish line.

## Real placement analytics

See how your season is tracking in real time, not at the end.

## Free HRMS for your staff

Manage faculty and staff on the same platform, complimentary.

## No forced contracts

Stay because it works for your cell, not because you are locked in.

## Pricing — per placement batch, per year

### Small

Up to 100 students

₹20,000 / year

### Growing

101 to 300 students

₹40,000 / year

### Large

301 to 600 students

₹60,000 / year

### Institution

600+ students

Contact us

Priced per placement batch per year, so larger cells get a better effective rate. Complimentary People OS for faculty and staff included at every tier.

## Get your placement cell ready

Book a walkthrough and we will show you PlacementOS against how your cell runs the season today.
