

FOR CORPORATES

We have great software and great culture!

Run your whole people function on **one platform**

NestHR is a complete HRMS built for growing companies — people, attendance, leave, payroll, performance, and more in one place. Add work intelligence and a built-in document engine, and you replace a stack of disconnected tools with a single, India-first platform your team will actually enjoy using.

11 modules

One connected HR platform

3-way payroll

Flexible, compliant, automated

16 templates

Letters with built-in e-sign

Flat pricing. Real intelligence. No bloated enterprise contracts.

Most HR platforms make you choose between power and price. NestHR gives you both: a full-featured HRMS with work intelligence and a document engine that legacy tools charge a premium for, at simple flat pricing with no forced lock-in. Built for Indian companies, ready to scale with you.

What's inside

Eleven modules that cover the full employee lifecycle, from the first day to every payslip, all connected so your data lives in one place.

People

Employee records, org chart, and profiles in one source of truth.

Attendance

Track time, shifts, and presence with flexible policies.

Leave

Leave requests, approvals, and balances, fully automated.

Work Intelligence

Insights into how your team works, not just what they log.

Performance

Goals, reviews, and feedback that keep teams aligned.

Learning

Upskill your team with structured learning paths.

Payroll

Three-way, compliant payroll that runs itself.

Expense

Claims, approvals, and reimbursements without the chase.

Talent

Hire at scale, including campus and bulk recruitment.

Document Engine

16 letter templates with built-in e-signature.

Analytics

Dashboards across every module, in real time.

And more

A growing platform that adds capability over time.

Talent OS: hiring at scale, built in

If your company recruits in volume — campus drives, bulk hiring, or high-throughput pipelines — the Talent module runs it end to end: manage drives, evaluate candidates in batches, track offers, and pull it all into your HRMS the moment they join. No separate recruiting tool, no data re-entry.

Why NestHR, and what it costs

The capability of an enterprise suite, priced and built for companies that want to move fast without lock-in.

Flat, honest pricing

Simple per-employee pricing. No per-module upsells, no surprise enterprise tiers.

Work intelligence built in

Understand how your team actually works, a layer most HRMS tools do not have.

Document engine with e-sign

Generate and sign 16 letter types in-platform, no third-party tool needed.

India-first

Built for Indian payroll, compliance, and how Indian companies actually run HR.

No forced contracts

Stay because it works, not because you are locked in.

Pricing

Standard

Full HRMS, core modules

₹799 / employee / year

Plus

Everything, including advanced intelligence

₹999 / employee / year

Pricing shown per employee per year. Volume and multi-year terms available. Talk to us for a plan sized to your team.
